PROFILE

Motivated and creative student with a strong interest in web development and problem solving. I enjoy turning ideas into clean, easy-to-use interfaces and understanding how things work. My love for drawing and sketching helps me think visually and pay attention to design. I am a quick learner who enjoys exploring new technologies.

PROJECTS

CodeNova – Interactive Computer Science Learning Platform

Team Project | Live Demo | GitHub

A web platform that teaches computer science through step-by-step visual explanations, with quizzes, 1v1 duels and competitions.

Technologies Used: React.js, D3.js, Node.js, Express.js, MongoDB.

My Contribution (Front-End):

- Developed the front-end of the Data Structures and Algorithms, OOP and Cryptography modules.
- Built the front-end of the level-based quizzes, 1v1 duel game and competition pages.

NutriPredict – AIML Micro Project

Live Demo | GitHub

A web application that predicts a person's daily calorie requirement using Machine Learning and suggests a matching diet plan.

Technologies Used: Python, Flask, Scikit-learn, HTML, CSS, JavaScript

- Trained and compared Random Forest and Linear Regression models to predict daily calories.
- Built a Flask web app that shows calories, BMI and a matching meal plan.

Portfolio Website – Personal Portfolio

Live Demo | GitHub

A personal portfolio website that shows my skills, resume and projects, with a live demo for every project.

Technologies Used: HTML, CSS, JavaScript, React.js

- Built the complete website UI with reusable React components.
- Added typing effect, scroll animations and project filters.

EDUCATION

Diploma in Computer Engineering 2024 – Present
Government Polytechnic, Mumbai
Aggregate: 84.11% (till 4th Semester)

Secondary School Certificate (SSC) Completed 2024
Al-Ittehad Urdu High School
Percentage: 84%
